

TELECOMMUNICATIONS

Our inter-disciplinary team counsels clients on a full range of legal needs, including:

- Site acquisition and development, including zoning, and permitting of antenna facilities and in-ground systems
- Negotiating leases and licenses
- Interconnection and network access
- Acquisition of unbundled network elements
- Environmental issues, such as wetlands approvals and resolution of potential impacts on historic properties
- Litigation in state and federal court
- Regulatory matters
- Mergers and acquisitions
- New business structures
- Contract negotiation
- Intellectual property
